Strategy on Mutilating U.S. Imperialism Put Forth By Marshal KIM IL SUNG Instills Conviction Of Victory into Revolutionary People World Over

PYONGYANG, Nov. 30 (KCNA)—Asian, African and Latin American students studying in the Soviet Union held a meeting on Nov. 23 in Moscow supporting and hailing the report delivered by Comrade Kim Il Sung at the Celebration of the 20th Anniversary of the Founding of the Democratic People's Republic of Korea. The meeting adopted a message addressed to Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people.

The message reads in full:

Esteemed Comrade Kim Il Sung!

We, Asian, African and Latin American students and postgraduates studying in Moscow, read the great report made by you at the Celebration of the 20th Anniversary of the Founding of the Democratic People's Republic of Korea, gathered here today with unbounded emotion and reverentially address this message to you.

We attending the meeting after studying your great document express the highest admiration for your great ideas and brilliant strategy, and profound scientific theory and outstanding lines based on rich practical experiences, which are contained in the document and extend the highest honour and greetings to Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, peerless patriot, national hero, ever-victorious iron-willed brilliant commander and one of the outstanding leaders of the international communist movement and working-class movement, for publishing the infinitely precious, such splendid programmatic document not only for the entire Korean people but for us fighting peoples of the three continents.

Esteemed Comrade Kim Il Sung!

In the report you summed up the great victories and successes made by the Korean people in the historic course of the founding of the Democratic People's Republic of Korea, that is, in the struggle for founding, consolidating and developing a revolutionary democratic base in the northern half of the Republic, and in the historic course of the great Fatherland Liberation War in which the armed invasion of the U.S. imperialists was repulsed and national independence and honour were defended, the struggle for rehabilitating the devastated economy, constructing a solid independent national economy and building up powerful self-defensive defence capacities after the war and the struggle for consolidating and developing the socialist system, and indicated the most correct road and prospect for the nationwide victory of the Korean revolution.

The precious experiences of the 15-year long heroic anti-Japanese armed struggle waged under your leadership for founding the Democratic People's Republic of Korea and the line of the people's revolutionary government put forth by you are, indeed, a living example and programmatic guiding principle for the peoples of the three continents in the struggle for genuine national independence and liberation and for establishing a genuine people's power.

And the brilliant successes scored by the Korean people under your wise leadership in the past 20 years since the founding of the Republic, particularly the wise and original lines put forth by you at each period of the development of the revolution, that is, the creative line on socialist transformation, revolutionary line of economic construction on giving priority to the growth of heavy industry with simultaneous development of light industry and agriculture, and line of building an independent national economy, theses on the socialist rural question, theory on continually and thoroughly carrying out revolution in all fields of politics, economy and culture even after the laying of the foundation of socialism, etc. are a brilliant example of creative application and new development of Marxism-Leninism and a great inspiring strength and living example for us peoples of the three continents who are embarking upon the road of socialism, casting off the yoke of colonialism.

Particularly in the report you put forth the revolutionary way for the revolutionary people of the whole world, to pool strength, knock down U.S. imperialism and defend world peace.

In the report you said that **"In order to defeat U.S. imperialism, the anti-U.S. struggle should be unfolded vigorously in all parts of the world"** and instructed that **"The peoples of all countries making revolution should tear limbs off the U.S. beast and behead it all over the world. The U.S. imperialists appear to be strong, but when the peoples of many countries attack them from all sides and join in mutilating them in that way, they will become impotent and bite the dust in the end."**

Your strategy on tearing the limbs off U.S. imperialism, this is a truly revolutionary, pre-eminent strategy of struggle instilling firm conviction of victory into the revolutionary people of the whole world who have turned out today in the anti-imperialist struggle and a brilliant strategy enriching the treasure-house of Marxism-Leninism.

The experience of the Korean War testified to this truth and the victory of the Cuban revolution and the Vietnamese people's heroic war of resistance against U.S. imperialism for national salvation also convincingly prove this truth.

The South Korean people encouraged by your great revolutionary ideas are unfolding a vigorous struggle, taking arms in their hands, to overthrow the U.S. imperialists and the Pak Jung Hi puppet clique.

We youths and peoples of the three continents express full support to and solidarity with the Korean people in their righteous struggle for driving the U.S. imperialists out of South Korea and unifying the fatherland independently.

Ever-victorious is the just cause of the Korean people under the wise leadership of Comrade Kim Il Sung, the great Leader of the 40 million Korean people.

As you instructed, when the revolutionary people all over the world tear the limbs off the U.S. beast and behead it in all parts, it will surely bite the dust and Asia, Africa and Latin America will achieve genuine liberation.

We students of the three continents who drew unbounded strength and courage from your great document wholeheartedly wish you esteemed Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people and great Leader of the peoples of three continents in the anti-imperialist struggle, good health and a long life for the prosperity and development of the Democratic People's Republic of Korea, for the independent unification of Korea and for the victory of the struggle of the Asian, African and Latin American peoples.

Asian, African and Latin American students studying in the Soviet Union.

Uljin Inhabitants Organize Revolutionary, Shouting

"Let Us, Too, Fight, Upholding Leadership Of Marshal KIM IL SUNG!"

According to South Korean publications, when an armed guerrilla unit which is active in Uljin area appeared in a village of the county on Nov. 3 wiping out the enemy, the news spread in no time and people gathered there from all surrounding villages.

The guerrillas who had an emotion-charged meeting with the villagers earnestly explained to them that it is owing to the occupation of South Korea by the U.S. imperialist aggressors and the misrule and tyranny of the Pak Jung Hi puppet clique that the peasants and villagers there and people in other areas of South Korea are suffering from total non-rights and hunger and undergoing unbearable national calamities and misfortunes and fully exposed the scoundrels' crimes unpardonable down through generations.

The guerrillas powerfully roused the villagers, stressing that they should thoroughly smash the U.S. imperialists and their stooges by joining in the ranks of the anti-U.S., national salvation struggle in order to free themselves from today's calamities and misfortunes at the earliest date and lead a happy life in the people's paradise as in the northern half of the DPRK under the leadership of Marshal Kim Il Sung, the great Leader of the 40 million Korean people.

The guerrillas emphasized: Though we are now groaning under non-rights and sufferings, if we form an organization, turn out as one in the anti-U.S., national salvation struggle and overthrow the colonial rule of the U.S. imperialists, we will also be embraced in the benevolent bosom of Marshal Kim Il Sung, the great Leader, and lead a happy life to our satisfaction together with the compatriots in the northern half of the Republic, and the day will come before long.

The masses, deeply stirred and moved, shouted in unison, "Let us, too, fight, upholding the leadership of Marshal Kim Il Sung!" unable to repress their deep feeling.

The villagers discussed and agreed to form an organization.

The armed guerrillas and villagers formed a revolutionary party amid the surging revolutionary zeal of all the people there. Those who volunteered to be admitted to the revolutionary party wrote an application for admission, solemnly pledging themselves to dedicate their life to the revolution for the country and the nation and "fight to the last moment of their life in the sacred struggle for a new government, new system and new life" and they affixed their seal to it.

Youth and women also organized the National Salvation Youth Union and Revolutionary Women's Association making a lofty fighting determination and elected their heads.

Wrapped in the revolutionary atmosphere, the villagers who had stored-up resentment and indignation at the U.S. imperialists and their stooges renewed their burning determination to crush the U.S. imperialists, the enemy, and the traitorous Pak Jung Hi clique.

Then the armed guerrillas dragged out malicious hirelings who had been tormenting the people by a most vicious way, exposed their crimes before the masses, finished them off in the name of the people and shared out articles and money confiscated from them to the ill-clad and hunger-stricken inhabitants, and left for other place, repeatedly calling upon them to fight for the revolution to the end.

The formation of the revolutionary party and mass organizations by the armed guerrilla units and people in Uljin area shows that the revolutionary struggle of the armed guerrilla units is growing in scope and strength, striking its roots deep among the broader masses. This is, at the same time, one more bomb for the U.S. imperialists and the traitorous Pak Jung Hi clique.

Armed Guerrillas Heavily Barrage Enemy; Enemy Helicopter Crashes

A valorous armed guerrilla unit which is conducting nimble operation in Jungsun area, South Korean Kangwon Province, heavily beat the enemy in the daytime of Nov. 29 too, according to a report from Seoul.

The armed guerrilla unit which had been closely watching the enemy after moving close to the village at around 11 hours a.m. that day through steep mountain ranges spotted puppet army and police scoundrels and rained a fierce

DPRK Foreign Ministry Statement Flays Shameful U.N. "Resolution" On "Conditional Invitation"

PYONGYANG, Dec. 1 (KCNA)—The Foreign Ministry of the Democratic People's Republic of Korea issued a statement today in connection with the fact that at the meeting of the Political Committee of the 23rd Session of the United Nations General Assembly held on Nov. 27, the U.S. imperialists again forced through the shameful "resolution" uttering the socalled "conditional invitation" to hinder the representative of the DPRK from participating in the discussion of the "Korean question." Reminiscences of Anti-Japanese Guerrillas

Unforgettable First Meeting

By *Choi Hyun*

It was in September 1933 that I met Comrade Kim Il Sung for the first time.

At that time I was a company commander of a guerilla unit in the Yenchi district. I received an order from Comrade Kim Il Sung that I should hurry to the Wangching guerilla base with my unit, fully prepared for battle.

I had been among the ranks of the guerilla units more than one year. Though I had wished so much to see him, I was yet to meet him. So you can imagine how happy and excited I was when I received his order. This joy was not mine only, but every member of my company shared it.

We hurried on our way and reached Machun —the Hsiaowangching guerilla base—in a short time. When we got there, we were led to the headquarters of Comrade Kim Il Sung.

A long time has elapsed since then. But how fresh everything is in my mind!

There was a small grass-roofed house standing on a mound. A clear stream was murmuring down the little valley.

When we reached the house, the comrade who was leading us made a report. Then the front gate was opened wide and a dignified looking young cadre came outside. Holding out his hand, he said with his face beaming with a smile:

"I'm certainly glad to see you, Comrade Choi Hyun."

I knew right away this was General Kim Il Sung. I was greatly moved. True, it was the first time that I had seen him in person. But, because for a long time I had entrusted everything to him, I never felt that I was meeting him for the first time.

I told him I had come, as ordered, with my company. Then he said:

"Good, well done! As a matter of fact, I have been awaiting your arrival for some time. Let's go in!"

He led me into a room. It was a modest room. There was a low table in the middle of the room, on which a few books and maps lay open.

As we sat down General Kim Il Sung said:

"You know, I have wanted to see you for a long time...."

His welcome overwhelmed me so that I did not know what to say. Then he continued:

"...I called you because I wanted your unit to take part in the battle at Tungning county seat.... But I regret that my word failed to reach you in time...."

Then he told me that he had been back for three days from the victorious campaign at Tungning county seat.

When I heard this—that our unit could not take part in the battle—I felt so discouraged. As we hurried along our way to Hsiaowangching, I was determined to give the enemy a crushing defeat—my first participation in a campaign led by General Kim Il Sung personally. But the battle was over, so I asked this question:

"Is any campaign planned in the near future?"

Obviously he knew why I put this sort of question and said:

"Please don't feel too bad about it. There will be many, many campaigns, of course.... Now let's talk about something we should do in the future."

When he talked to me in this manner, I decided not to pursue the subject further. And his words relieved my regret gradually.

Comrade Kim Il Sung then posed several questions about the guerilla activities and local situation in Yenchi county. Among the many questions that he asked me, there were some that I had been thinking of before. But there were many that had never occurred to me. He was fully informed about the things that he asked and he knew exactly what should be done to solve each problem.

In the course of our talk, listening to his quiet voice and telling him all the things that I had learned and thought of, I felt closer to him than ever.

After supper Comrade Kim Il Sung talked to me for hours about how the campaign at Tungning county seat had been organized and fought and about the significance of the campaign.

The Tungning county seat occupied an important position, politically and militarily, since it was on the Soviet-Chinese borders. At that time, the Japanese imperialists had set up many military installations and greatly strengthened their military forces for their aggression against the Soviet Union. Consequently, the Tungning campaign waged by the anti-Japanese guerilla units under the personal command of Comrade Kim Il Sung was of great significance politically and militarily.

In the Tungning campaign he attached great strategic importance to large-scale joint actions with the forces of the "Chinese anti-Japanese units" which had been scattered around in East Manchuria.

At that time the "Chinese anti-Japanese units" (known as the national salvation army) were to be found throughout northeastern Manchuria. Formerly, they had belonged to the armed units of a warlord Chang Hsiao-liang, but fell off upon the downfall of Chang after the Japanese invasion of Manchuria. These armed units were against the Japanese. However, in essence they represented the interests of landlords and capitalists. They were of a nationalistic nature and their political awakening was very low. As a result, even though they were fighting Japanese imperialism, they were unable to put up any positive struggle. The units maintained isolated positions with their bases mostly in forests. Moreover, taken in by the vicious Japanese propaganda, they even killed Koreans on the pretext that the Koreans were either "pro-Japanese" or Communists. Some of the "Chinese anti-Japanese units" became chauvinistic. The situation was serious. To make matters worse, in northeastern Manchuria such vicious factionists as Kim Sung Do, Song Il and others advanced ultra-Left slogans, driving a wedge between the Koreans and the Chinese and making the "Chinese anti-Japanese units" hostile to the Korean Communists. It was around that time a true Korean Communist Ri Kwang who had been a leader of a detached force was killed by an anti-Japanese unit led by Tung San-hao.

Under these circumstances, it was by no means an easy task to convince the "Chinese anti-Japanese units" and bring them to conduct joint actions with our anti-Japanese guerilla units. It had to be carried out at the risk of one's life. Moreover, one had to be a broad-minded person having political ability to solve such a complicated, but very important problem. Some members hesitated to conduct joint action with the "Chinese anti-Japanese units."

However, Comrade Kim Il Sung saw the problem in its true light. It was true that the "Chinese anti-Japanese units," because of their narrow class views and low political awakening, were reluctant to conduct joint action with us. But they, too, were fighting Japanese imperialism. In this respect, their aim was the same with ours. Comrade Kim Il Sung was sure that they would come along with us if we could make them see the just cause of our guerilla struggle and the advantages of joint action. And boldly he undertook the big Korean-Chinese joint action against the Japanese imperialists. It was the first such joint action since the anti-Japanese guerilla units were organized.

Comrade Kim Il Sung said to me:

"...It was a very difficult problem to conduct a joint campaign with the 'Chinese anti-Japanese units.' But it was a revolutionary task which demanded an immediate solution, and it could be solved. Therefore, we discussed this problem in good earnest and I went directly there. With some 50 members of our units I went to the Wu I-cheng unit and explained concretely about the aims of our struggle and the tremendous significance of a united front. At first they were somewhat doubtful, but eventually they were convinced of the correctness of our proposals. We succeeded, as we hoped, in making them understand our position and in conducting joint campaigns."

Frankly speaking in East Manchuria, there was no one except Comrade Kim Il Sung who enjoyed such political trust and personal prestige and who was endowed with such superior ability as to persuade the "Chinese anti-Japanese units" to join in our struggle. At last he succeeded in fulfilling this arduous task in spite of a great danger. Thanks to his efforts, some 1,000 men of the "Chinese anti-Japanese units" under the command of Wu I-sheng, Shih and Tsai took part in the joint campaign with the anti-Japanese guerilla units under the unified command of Comrade Kim Il Sung. The might of the Korean-Chinese united front was fully shown and it served to deliver a staggering blow to the Japanese imperialists, militarily, politically, and morally.

Rev. Tradition of Publications Set Up in 1930's

32nd Anniv. of Founding of "Samil Wolgan" (Monthly March 1) Observed

Recent issues of DPRK papers printed articles dedicated to the 32nd anniversary of the founding of "Samil Wolgan" (Monthly March I) on December 1, 1936, under the personal leadership of Marshal Kim Il Sung, the great Leader, in the fierce flames of the heroic armed struggle against the Japanese imperialist aggressors.

Rodong Shinmoon (the central organ of the Workers' Party of Korea) carried an article headlined "Brilliant Revolutionary Tradition of the Publications of Our Party Established in the Period of the Anti-Japanese Armed Struggle." Follows a gist of the article:

In the early period of the anti-Japanese armed struggle Comrade Kim Il Sung said that **"Just as the revolutionary army can fight the enemy and win only when it possesses weapons, so the revolutionary organizations can lead the masses to victory when they have such sharp and militant ideological weapon as publications."**

Comrade Kim Il Sung founded "Samil Wolgan," the organ of the Association for the Restoration of the Fatherland, on December 1, 1936, on the basis of rich experiences and wherewithal and in conformity with the lawful demand of the development of the revolution and publications in our country, and in May, 1937, he published "Sukwang" (dawn), political paper of the Korean People's Revolutionary Army, and its paper "Jongsori" (sound of bell) and other periodicals, and edited and put out pamphlets and study materials including the "Duty of the Korean Communists."

The revolutionary publications put out by the Korean Communists under the leadership of Comrade Kim Il Sung numbered over 500 in kind even according to dwarfed figures released by the Japanese imperialists at that time.

The founding of "Samil Wolgan" and other revolutionary publications was the brilliant fruition of the protracted, arduous bloody struggle of the Korean Communists and our people to possess most revolutionary and popular, Party spirit publications of the Korean people, fighting solely for the Korean revolution and the freedom and liberation of the Korean people.

"Samil Wolgan" and other revolutionary publications regarded it as their most honourable, first and foremost duty to explain and propagate the great revolutionary ideas and revolutionary lines of Comrade Kim Il Sung in an all-round and deep-going way and resolutely fight for their thorough implementation, and were boundlessly faithful to this duty.

"Samil Wolgan" and other revolutionary publications carried and systematically explained and propagated the "10-point Programme of the Association for the Restoration of the Fatherland," a great Marxist-Leninist document personally worked out by Comrade Kim Il Sung, his works "The Duty of the Korean Communists" and "How to Organize the Expanding Anti-Japanese Movement of the Korean People?" and many other documents.

The revolutionary publications which were put out under the personal guidance of Comrade Kim Il Sung accumulated a wealth of infinitely precious and rich and all-sided experiences in the course of fully performing their historic mission as the powerful ideological weapon of the anti-Japanese armed struggle directly organized and led by him—the experience in establishing *Juche* and correctly combining the class line with mass line and implementing them in the publishing work, experience in the struggle

for enhancing the role of the publications as a propagandist, agitator and organizer and strengthening their militant Party spirit, working-class spirit, popular spirit and mass spirit, experience in carrying out the publishing work on the revolutionary principle of self-reliance, etc.

The brilliant example of the communist traits to be possessed by men of the press of the Party, such as boundless loyalty to Comrade Kim Il Sung, the great Leader of the Korean revolution, revolutionary spirit of unconditionally carrying out the orders and instructions of the Leader to the end and popular style of work and revolutionary work method firmly believing in the strength of the masses and working relying on them, was created for the first time in the history of our country by the revolutionary publishing workers.

The great revolutionary ideas of Comrade Kim Il Sung which "Samil Wolgan" and other revolutionary publications took as the guiding principle, the Communist Party spirit and popular spirit embodied in the publications and the revolutionary exploits and precious experiences of the revolutionary publications—these are the most glorious traditions of our publications established by "Samil Wolgan" and other revolutionary publications under his wise leadership in the period of the anti-Japanese armed struggle.

United Dem. Fatherland Front, Peaceful Fatherland Unification Com.

Condemn U.S. Imperialists, Pak Clique for Murderous Trials against S. Korean Revolutionaries, Patriots

PYONGYANG, Dec. 1 (KCNA)—The Central Committee of the United Democratic Fatherland Front and the Committee for the Peaceful Unification of the Fatherland issued today a statement of denunciation in connection with the fact that the U.S. imperialist aggressors and their stooges the Pak Jung Hi puppet clique who have been engrossed in the bloody suppression of the people, stepping up the policy of aggression and war in South Korea are committing the unpardonable crimes of staging the murderous trials against South Korean revolutionaries and patriots in an attempt to brutally punish them on all sorts of faked-up "charges."

The statement reads as follows:

The farces of fascist, murderous trials in which aggression and treachery strangulate patriotism have recently been staged almost every day in South Korea.

The U.S. imperialist aggressors and their stooges the Pak Jung Hi puppet clique who had been engrossed in the bloody suppression of the people, stepping up the policy of aggression and war in South Korea committed the unpardonable crime of staging on Nov. 22 a murderous trial against Kim Jong Tai, head of Seoul headquarters of the United Revolutionary Party, and 26 other patriots in an attempt to brutally punish them on all sorts of faked-up "charges."

Particularly, the rascals are maliciously scheming to inflict more ruthless punishment upon Kim Jong Tai under the pretext that he removed bars of prison window and broke jail.

These scoundrels also committed on Nov. 21 the treacherous crime of bringing groundless "charges" against many patriots who were allegedly involved in the socalled "case of the Operative Group for Communizing South Korea" they themselves rigged up and sentencing them to capital and heavy punishment including death and life imprisonment.

Furthermore, the U.S. imperialists and the Pak Jung Hi fascist bandits went off into fascist hysteria of inflicting heavy penalty upon the members of the Society for Comparative Study of Nationalism, an academic organization of students of the Liberal Arts and Sciences College of the Seoul University, against whom, they themselves declared, they have no ground whatsoever to bring "charges."

These criminal machinations of the rascals evoke the burning indignation and resentment of all people who love justice and truth.

When the entire Korean people and the world people are unanimously raising higher the voices of condemning the U.S. imperialists and the Pak Jung Hi clique, these rascals are staging farces of sanguinary "trials" almost every day in a reckless attempt to punish en masse, under the notorious "National Security Law" and "Anti-Communist Law," many patriots who were allegedly involved in the "cases" of the People's Revolutionary Party and the South Korean Liberation Strategic Party, six patriots who waged anti-U.S., national salvation activities in the areas centering around Imja Island, South Cholla Province, and even five personages including a certain Kim who kept a barber's shop in Seoul.

Thus, today the fascist frenzy of the U.S. imperialists and Pak Jung Hi clique has reached the zenith in South Korea, and a grave danger is befalling the South Korean revolutionaries and patriots.

The atrocious fascist suppression of the South Korean patriots by the U.S. imperialists and the traitorous Pak Jung Hi clique is an unpardonable challenge to the entire Korean people and an intolerable insult to the people of the whole world who value justice and truth.

The Central Committee of the United Democratic Fatherland Front and the Committee for the Peaceful Unification of the Fatherland, in the name of the entire Korean people, resolutely denounce with burning national indignation the U.S. imperialist aggressors and the Pak Jung Hi fascist bandits who have been frequently staging farces of murderous trials against Kim Jong Tai and other revolutionaries and patriots of South Korea in an attempt to punish them en masse.

The colonial fascist rule of U.S. imperialism over South Korea in the past 20 odd years has left no other way for the South Korean people but that of the anti-U.S., national salvation struggle.

As everyone knows, today South Korea has been converted into a complete colony and aggressive military base of U.S. imperialism and turned into a living hell for people where starvation and poverty, terror and massacre prevail.

In South Korea, the sovereignty of the nation is totally trampled underfoot, national economy utterly devastated, national culture is in eclipse, affected by things American and Japanese, and the people are ill-clad and starving under the twofold, threefold exploitation and oppression.

The South Korean people are shedding blood almost every day because of the bestial atrocities of the U.S. imperialist aggressors and undergoing unbearable disasters due to the reinvasion scheme of the Japanese militarists and the dispatch of the puppet troops to South Vietnam.

On top of it, immeasurably great are the misfortunes and sufferings of the South Korean people who are undergoing the tragic lot of national split over the 20 odd years caused by the occupation of South Korea by the U.S. imperialists.

How on earth can any Korean of conscience who treasures the destiny of the country and nation sit idle and look on with folded arms under such situation?

This is why Kim Jong Tai and other members of the United Revolutionary Party valiantly waged the anti-U.S., national salvation struggle of all forms including armed struggle against the U.S. imperialists and the Pak Jung Hi puppet clique, while making a deep-going study of the immortal works of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and widely disseminating his great revolutionary ideas among the masses.

All the revolutionaries and patriots who were arrested and imprisoned on the charge of involvement in the socalled "case of the Operative Group for Communizing South Korea," the "case" of the People's Revolutionary Party and various other faked-up "cases" had also fought against the colonial rule o the U.S. imperialists over South Korea and for the democratization of the South Korean society and the independent unification of the fatherland.

All the struggle waged by Kim Jong Tai and other revolutionaries and patriots of South Korea is a just, patriotic struggle proceeding from their own bitter life experiences and reflecting the unanimous desire and aspiration of the South Korean people and a sacred anti-U.S., national salvation struggle which will shine forever in the glorious revolutionary history of our country.

Why should such struggle of the South Korean revolutionaries and patriots be a "crime" and why should the true patriots who fought shedding their blood become a target of punishment?

Why should the struggle for overthrowing the colonial rule in South Korea and building a society good for people to live in be a crime and why should the struggle for making the workers become the masters of the factories and the peasants the masters of land and the entire people live in happiness in a unified fatherland be a target of punishment?

It must never be so.

Those who must be punished in South Korea are not the patriots but the U.S. imperialist aggressors who are hampering the unification of our fatherland and imposing all sorts of misfortunes and calamities upon the South Korean people, occupying South Korea by force of arms and enforcing a colonial rule there and the traitorous Pak Jung Hi clique, who have become their dogs and are bestially suppressing and murdering patriotic people, while bartering away lock, stock and barrel the interests of the country and the nation to the foreign aggressors.

These beasts should have been severely judged and punished long ago by our people for their unpardonable crimes.

But the U.S. imperialists and the Pak Jung Hi puppet bandits arrested and jailed Kim Jong Tai and other South Korean revolutionaries and patriots and are scheming to punish them by wholesale, brandishing the notorious "National Security Law" and "Anti-Communist Law" like a thief crying "stop thief." Are there on earth fascist murderers more vicious than these bandits? Are there on earth the enemy of the people more ferocious than these bandits?

Such intensification of fascist

U.S. Imperialism and Pak Bandits, Stop Punishing S. Korean Revolutionaries and Patriots!

EDITORIAL

The Central Committee of the United Democratic Fatherland Front and the Committee for the Peaceful Unification of the Fatherland issued on Dec. 1 a statement, scathingly condemning the U.S. imperialists and their stooges for staging murderous trials against the South Korean revolutionaries and patriots.

We fully support this statement which reflects the unanimous national resentment of the entire Korean people.

The U.S. imperialists and the Pak Jung Hi clique held a murderous trial farce in Seoul on Nov. 22 against Kim Jong Tai, head of the Seoul headquarters of the United Revolutionary Party and 26 other members of the party, in an attempt to barbarously punish them on all sorts of trumped-up "charges."

On Nov. 26 in another murderous trial farce in Seoul, the scoundrels perpetrated an unpardonable treacherous act of "sentencing" to death and other heavy penalties the patriots whom they had arrested, detained and subjected to atrocious torture for a long period on charges of alleged involvement in the "case" of the People's Revolutionary Party.

Furthermore, the shameless scoundrels imposed death and other heavy sentences upon the patriotic intellectuals who were alleged to have been involved in the "case of the Operative Group for Communizing South Korea" and the "case" of the Society for Comparative Study of Nationalism.

These acts are an intolerable challenge of aggression and treachery to justice and patriotism.

We, in the name of the 600,000 Korean citizens in Japan, denounce and condemn with surging national indignation the U.S. imperialists and Pak Jung Hi clique for punishing shamelessly the South Korean revolutionaries and patriots in these murderous trial farces.

The present-day fascist colonial rule over South Korea by the U.S. imperialists and the Pak Jung Hi clique leaves to the South Korean people no choice but to uphold the banner of anti-U.S. and national salvation and fight for an independent unification of the country.

South Korea is today a complete colony and military base of U.S. imperialism. South Korea's national industries have already gone bankrupt; national culture has violently been stifled to death; people are languishing under extreme poverty, deprived of all kinds of political freedoms and rights. To complete the sum of their miseries, South Korean people are forcibly subjected to all sorts of conceivable national discrimination and humiliation by the U.S. imperialist aggressor troops and even ruthlessly injured and slaughtered by the scoundrels.

Who can sit silent and idle before these realities if he loves his fatherland and has national conscience?

Kim Jong Tai and other members of the United Revolutionary Party deeply studied the works of Marshal Kim Il Sung and went into the masses of people, widely spreading the revolutionary ideas of the great Leader and carried out various forms of struggles against the scoundrels, even preparing future armed struggle.

Furthermore, the fact has already been brought to full light that all the revolutionaries and patriots allegedly involved in the abovementioned "cases" and other fabricated "cases" had resolutely fought against the U.S. imperialist aggressors and their stooges Pak Jung Hi clique, for democratization of the society and for an independent national unification.

Why should a struggle against the foreign aggressors which invaded the country and against the traitors who sold the nation to them be a "crime" and become an object of punishment? It can never be so.

It is the U.S. imperialists and the Pak Jung Hi clique that ought to be punished and executed in the name of the entire Korean people.

With the intensified fascist suppressive measures, the scoundrels intend to tide over the crisis rocking their colonial rule to the foundation and stamp out the rapidly growing revolutionary forces of South Korean people which are a serious threat to their colonial rule and obstacle in their new war provocation policy.

Marshal Kim Il Sung, the great Leader of the 40 million Korean people, said:

"The South Korean people can wipe out the oppressors and attain genuine freedom and liberation only through their own determined struggle."

With boundless adoration and respect for Marshal Kim Il Sung and following the great Leader's teachings on the South Korean revolution and the unification of the fatherland, South Korean people are coming out in the heroic anti-U.S., national salvation struggles in various forms including armed guerrilla struggle throughout South Korea, dealing repeated big blows at the enemy.

The South Korean revolutionary armed guerrillas, firmly supported by masses of people, have been waging stubborn struggles in the western, central and eastern parts of South Korea particularly since Nov. 1, hurling the enemy into utter panic. Boundlessly inspired by the armed guerrilla struggle, inhabitants of Bonghwa county of North Kyongsang Province set up their own power organ, a County People's Committee, which was immediately followed by the organization of a revolutionary party by inhabitants of Uljin of the same province.

Shocked at these spectacular revolutionary armed guerrilla activities, the U.S. imperialists and the Pak Jung Hi clique are frantically trying to describe them as "work of North Korean infiltrators" or "attempt to unify the country by means of arms" in a bid to cover up their crisis and mislead public opinion and thereby justify their strengthened fascist suppression and new war provocations against the northern half of the DPRK, even deploying naval vessels of the 7th Fleet into the East Sea which formerly attacked the Vietnamese people.

Their evil intention has already been thoroughly exposed. Their intensified fascist suppressive campaign and new war provocative maneuvers will only evoke the greater discontent and resistance of the South Korean people and accelerate their ruin which is imminent. They can never check the revolutionary advance of the South Korean people by all means.

The South Korean people will expand and strengthen their heroic anti-U.S., national salvation struggles to such an extent that they will be able to finally overthrow the U.S. imperialists and their stooges, democratize the society, establish their true people's power and accomplish national unification.

The South Korean people will combine their forces to smash the enemy's fascist suppressive measures and get released the arrested revolutionaries and patriots.

We all 600,000 Korean citizens in Japan will do everything within our power to support their just struggle.

The world peace-loving people will do their level best to support their just struggle against the enemy and for independent national unification.

Victorious are the Korean people who are firmly rallied around Marshal Kim Il Sung, the great Leader of the 40 million Korean people and are vigorously advancing toward an independent unification of the fatherland, upholding his teachings.

fusillade upon them.

The scoundrels who were scattered in all directions by the surprise attack regrouped and desperately resisted, counting on their numerical superiority.

The armed guerrillas heavily volleyed at them and disappeared deep into the valley.

Thrown into utter confusion by the daily growing armed guerrilla struggle of the South Korean people, the enemy is now running hogwild.

According to a report, a helicopter of U.S. imperialist aggressor troops crashed on Nov. 27 while searching for armed guerrilla units in Myungjoo area, South Korean Kangwon Province. The remains are reported to be still undiscovered.

Four U.S. imperialist aggressors aboard the helicopter belonging to the 1st U.S. Army Corps met self-destruction while frantically flying above Myungjoo area.

Bonghwa Inhabitants Establish COUNTY PEOPLE'S COMMITTEE; Chairman and Vice-Chairman Elected

According to the Nov. 9 issue of a South Korean paper, an armed guerrilla unit made its appearance in Bonghwa county, North Kyongsang Province, some time ago and conducted political propaganda to the local inhabitants; inspired by this, the inhabitants there set up the County People's Committee and elected its Chairman and vice-Chairman.

Thus, the people's power organ which was ruthlessly trampled underfoot by the U.S. imperialist occupationists, the sworn enemy, has again come into existence in Bonghwa county. Reflecting the unanimous aspiration of the people there for overthrowing the colonial fascist terror rule of the U.S. imperialist aggressors and realizing a new policy and new system, this made the people wrapped in unbounded excitement and emotion and threw the enemy into greater horror.

The armed guerrilla unit in Bonghwa area which valiantly turned out in the armed struggle for realizing their aspiration advanced into a designated point in the county under the meticulous plan and preparation.

Averting the eyes of the enemy, the armed guerrilla unit had an emotion-charged meeting with the inhabitants who came from nearby villages and conducted political propaganda among them, calling for driving out the U.S. imperialist aggressors and regaining the lost people's power to enjoy genuine freedom and happiness.

It explained that the puppet regime in South Korea is an out-and-out marionette machinery rigged up by the U.S. imperialists and it is nothing but a tool of the exploiters for bleeding our compatriots white like that under the Japanese imperialist rule. Enumerating the treacherous, country-selling crimes of the scoundrels in the past 20 odd years, the armed guerrilla unit told the people that it cannot guarantee the interests of the people but serves the interests of the U.S. imperialists and a handful of landlords and comprador capitalists, their stooges.

Pointing out that the Bonghwa "county office" is also a lower-level machinery of the puppet regime, a reactionary machinery which is just the same with that of the Japanese imperialists, the armed guerrilla unit called for establishing a genuine people's power organ representing the interests of the people.

The armed guerrilla unit told the inhabitants that the people of the northern half of the Republic, holding the power tightly in their hands under the wise leadership of Marshal Kim Il Sung, the the great Leader of the 40 million Korean people, built the once backward colonial semi-feudal society like the present society of the southern half into an advanced, powerful socialist country as we see today, in which all people enjoy freedom and happiness to their heart's content, envying nothing in the world. Then the armed guerrilla unit, together with the inhabitants, listened to Radio Pyongyang airing the news of the grandiose socialist construction.

The propaganda by the armed guerrilla unit and the touching news of the northern half of the Republic boundlessly moved all the inhabitants present there.

When the armed guerrillas appealed to the inhabitants that "Let us establish a people's power by helping each other for living well like the brothers in the northern half!" the inhabitants expressed fervent support and actively responded to it.

Moved by this, the inhabitants shouted here and there the slogans: "Let us drive out the American rascals and sweep away the traitors!" and "Let us set up the people's power!"

The inhabitants who had been maltreated, persecuted, trampled underfoot and bled white under the tyranny of the enemy clenched their fists and gnashed the teeth, trembling with pent-up rancour at the enemy, and confirmed their resolve to finish off the U.S. imperialists and the traitorous Pak Jung Hi clique.

The armed guerrillas and the inhabitants there set up the Bonghwa County People's Committee forthwith and elected a certain Yoon Chairman and a certain Chun vice-Chairman.

Wrapped in the boundless joy of having set up the genuine people's power protecting and representing their interests, they renewed the determination to fight on, hand in hand with each other, not yielding to any persecution by the enemy.

The dazzling activities of the armed guerrilla unit in Bonghwa area and the establishment of a people's power organ by the people there show that today the revolutionary movement of the South Korean people is growing further in depth and scale, wringing the windpipe of the U.S. imperialists and their stooges.

Enemy Military Train Overturned in Wonjoo; Enemy Helicopter Crashes

According to another report, a group of patriots active in Wonjoo area of South Korean Kangwon Province overturned on Nov. 30 the enemy's army train which was carrying military supplies from the Chungryang *ri* Railway Station of Seoul to Yungjoo of North Kyongsang Province.

The army train was overturned in the section between Chiyak and Sinrim Railway Stations and its 12 wagons were smashed.

It is reported that a helicopter of the puppet army which was frantically searching for armed guerrilla units crashed in Uljin of North Kyongsang Province.

This shows the death-bed frenzy of the frightened enemy and the ugly sight of the doomed.

Powerfully Appeal to People to Rise Up in Anti-U.S., National Salvation Struggles

According to a report from Seoul, at around two Dec. 3 morning an armed guerrilla unit stealthily approached a post of the enemy in Samchuk area of South Korean Kangwon Province and showered handgrenades upon it by surprise. When the frightened scoundrels desperately resisted, the armed guerrillas administered an annihilating blow with volleys at them and disappeared at lightning speed.

Earlier, on Nov. 30, another armed guerrilla unit in this area which made its appearance in a mountainous village conducted political propaganda explaining to the villagers that their miserable situation of today is the outcome of the vicious colonial fascist terror rule of the U.S. imperialists, the chieftain of world reaction, and calling upon them to vigorously come out in the anti-U.S., national salvation struggle.

According to another report, an armed guerrilla unit which appeared in Pyungchang county of the province at around five Dec. 3 morning conducted propaganda explaining to the inhabitants that they can free themselves forever from the present abject poverty and non-rights only by overthrowing the colonial rule of the U.S. imperialists and setting up a people's power and shared out a large sum of money taken from the enemy to the villagers and disappeared.

Earlier, at around four Dec. 1 afternoon, another armed guerrilla unit in Myungjoo county, seeing puppet army and police scoundrels running for the suppression of the people, massed fierce fire on them, striking them with horror.

Scared by the armed guerrilla struggle of the South Korean revolutionaries which is growing in scope and strength day by day, the U.S. imperialists and the traitorous Pak Jung Hi clique are on the rampage to wriggle out of the quandary with the further intensification of the sanguinary suppression of people.

S. Korean People's Fostered Faith In Victory Through Struggle Only

Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, taught us: **"The revolutionary organizations and revolutionaries in South Korea must do their best to constantly accumulate and expand forces through a positive struggle against U.S. imperialism and its hirelings."**

Upholding the programmatic teachings given by Marshal Kim Il Sung, the respected and beloved Leader, the South Korean revolutionaries and patriots are waging a vigorous revolutionary struggle, dedicating their lives without hesitation, underground and in mountains, in prison and at murderous court in the teeth of unheard-of fascist suppression by the U.S. imperialists and the their stooges Pak Jung Hi puppet clique.

The South Korean revolutionaries and patriots are strengthening the struggle to organize the powerful main force of revolution and form an anti-U.S., national salvation united front, rapidly expanding the ranks of their struggle and enlisting broader sections of the people in them.

How rapidly the revolutionary organizations and the ranks of revolutionaries are being expanded in South Korea is clearly proved by the People's Revolutionary Party and the United Revolutionary Party, revolutionary organizations, and the Society for Comparative Study of Nationalism, the Jungsim Society and Reading Circle, which are being suppressed lately by the U.S. imperialists and their stooges Pak Jung Hi fascist bandits.

Looking up to Marshal Kim Il Sung, the great Leader of the 40 million Korean people, as their Leader, the South Korean revolutionaries take the line and policies of revolution put forth by him as the guiding principle in all their work.

Clear proof of this is furnished by the fact that the members of the Reading Circle organized with youth and students as leading core wrote a "letter of pledge to Premier Kim Il Sung," "pledging allegiance to the Workers' Party of Korea and Premier Kim Il Sung, the Leader" and studied the history of the Workers' Party of Korea and books on Marxism-Leninism and that the members of the United Revolutionary Party deeply studied "Selected Works of Kim Il Sung" and other works of the Leader.

The South Korean revolutionary organizations and revolutionaries are also energetically conducting political and ideological work to arm the broad masses of people with the great revolutionary ideas of Marshal Kim Il Sung and awaken them politically and ideologically.

As a result, among those who took the road of the anti-U.S., national salvation struggle for the South Korean revolution and the unification of the fatherland are workers, peasants, youth and students, intellectuals, medium and small traders and industrialists, some conscientious national capitalists, puppet army soldiers and even some puppet army officers and not a small number of personages of national conscience.

The South Korean revolutionaries and patriots, while unfolding the armed guerrilla struggle, are energetically conducting political propaganda among the masses of the people wherever they go, thereby instilling in the South Korean people the feeling of unbounded reverence for Marshal Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, and certainty of victory.

The guerrillas who seized for one day a village in Book *myun*, Uljin county, North Kyongsang Province, in November conducted political propaganda, rousing the villagers to the anti-U.S., national salvation struggle. They said: "We are the guerrillas fighting with arms in our hands, upholding the lofty will of Marshal Kim Il Sung to free ourselves from today's misery of humiliation and poverty." "It is because the U.S beasts and the traitorous Pak Jung Hi bandits are playing the master that today we South Korean people are going hungry, trodden down and driven into a dire plight." "Let us smash the enemy and establish a genuine people's power."

They shouted at the top of their voices: "Long live Marshal Kim Il Sung, the great Leader of the 40 million Korean people!" "Let us overthrow the U.S. imperialists and their stooges!"

Wherever they advanced, the heroic armed guerrillas set the hearts of the people ablaze with the feeling of unbounded respect and reverence for Marshal Kim Il Sung, the great Leader of the 40 million Korean people.

Thus, assistance to the armed guerrilla units has become all the more active of late among the people of all walks of life in South Korea, and broad sections of people are joining in the ranks of the armed guerrilla units to fight the enemy.

When an armed guerrilla unit surprised and mowed down puppet army and police scoundrels in a village in Wonduk *myun*, Samchuk county, South Korean Kangwon Province and another armed guerrilla unit wiped out enemies in other village of this county in November the enemy croaked that among the armed guerrillas were those in civilian clothes and in puppet army officer uniform.

This shows that the South Korean armed guerrilla units are steadily expanding their ranks not only among workers and peasants but among progressive intellectuals and broad sections of patriotic people including puppet army officers and men who have national and class awakening.

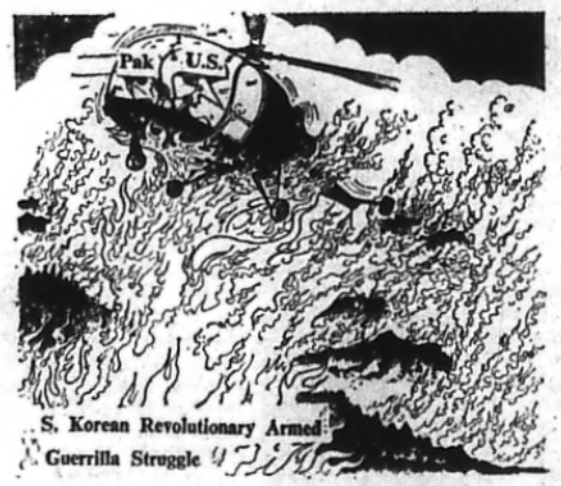
Revolutionary armed guerrilla units which made their appearance in the eastern and central areas of South Korea attacked enemies, wiping them out with mortar shells.

This proves that not only the revolutionary armed guerrilla struggle of the South Korean people is gaining in scope and scale but the armed guerrillas are further reinforcing their equipment.

The South Korean revolutionary armed guerrillas who have inherited the revolutionary spirit of the anti-Japanese revolutionary fighters are carrying on dazzling activities wherever they go, in towns and villages, with the active support and encouragement of the people and unfolding a gallant struggle, attacking and destroying the enemy's military trains and puppet offices and finishing off malicious stooges.

Encouraged by this, South Korean patriotic people are also waging an active anti-U.S., national salvation struggle, breaking into the enemy's organs and carrying away weapons.

The South Korean revolutionaries and patriots are steadily accumulating and strengthening the revolutionary forces through their active struggle, dealing serious blows to the colonial rule of U.S. imperialism and giving the South Korean people firm conviction that they can win victory only through the struggle.



It's the flaming anti-U.S., national salvation struggle, not a forest fire.

"ROK-U.S. Joint Naval Mobile Exercise" Staged in East Sea

Grave Danger of New War Sharply Mounts

A grave situation has been created in Korea because of the U.S. imperialists' new war provocative maneuvers against the DPRK.

The U.S. imperialist aggressors' frantic attempt to provoke a new war in Korea by all means is clearly seen in their deployment of combat-ready naval vessels of the U.S. 7th Fleet into the peaceful East Sea under the pretext of a "ROK-U.S. joint naval mobile exercise."

An attack aircraft carrier "Hancock" and four escort destroyers sailed on Dec. 2 into the East Sea of our country to take part in the "ROK-U.S. joint naval mobile exercise" and operate in the Korean waters on a "permanent basis" for a planned full-scale attack on the DPRK. These pirate ships just returned from the criminal aggressive mission against the Vietnamese people.

Aggressive "reconnaissance activities" against the DPRK have further been stepped up with introduction of latest-type reconnaissance planes from U.S. bases in Okinawa. South Korean puppet premier Chung Il Kwon flew to the pirate attack aircraft carrier to be briefed on the new war plan against the northern half.

According to reports from South Korea, these aggressive actions have been taken under an aggressive "military agreement" which was recently cooked up between the U.S. imperialists and their stooges Pak Jung Hi clique. The military agreement was wholly designed to step up the military provocations against the DPRK at any cost. And the South Korean puppet armed forces have extensively been reinforced by the U.S. imperialists according to the agreement.

From Nov. 26 to 30, the U.S. imperialists carried out the socalled "largest-scale mobile war game," mobilizing two U.S. army divisions and 18 puppet divisions around the DMZ. They also staged a "big airlift operation," "nuclear operation" and other numerous war games with participation of U.S. aggressive armed forces and South Korean puppet army with an undisguised view to attacking the DPRK.

These "war exercises" are heinous maneuverings of the U.S. imperialists to speed up preparations for a new war of aggression in Korea by completing war preparations so that they can mobilize all the ground, naval and air forces of aggression for action at any time against the DPRK.

Indeed, the military provocations by the U.S. imperialists against the DPRK and their armistice agreement violations up to Oct. 20 alone after the U.S. imperialist armed spy ship "Pueblo" incident reached over 8,400 cases and the bullets and shells fired at the DPRK side mounted to over 194,000 rounds during the same period, indicating what a grave stage the U.S. imperialist new war provocative maneuvers have reached.

As is well known, the U.S. imperialist scoundrels created a grave danger of war by infiltrating their nuclear aircraft carrier "Enterprise" and many other pirate ships into the East Sea immediately following the "Pueblo" incident. They repeatedly conducted "naval exercises" with the South Korean puppet navy and Japanese militarism on the seas surrounding Korea to complete their war preparedness.

All the facts show that the U.S. imperialist machinations to provoke a new war of aggression in Korea are growing ever more serious and reckless as the days go by.

In a frantic attempt to justify their new war provocative schemes in Korea, the U.S. scoundrels are noisily clamouring about imaginary "aggression from the North" or "North Korean infiltration," and thereby trying to conceal the sharply aggravating crisis within their colonial rule in South Korea.

And, while intensifying military provocations against the DPRK, they, as part of it, are perpetrating fascist frenzy, arresting and jailing South Korean revolutionaries, patriots and people who have waged the anti-U.S., national salvation struggle and staging almost every day murderous trial farces to ruthlessly punish them. They are running wild to "put down" the activities of the South Korean revolutionary armed guerrillas mounting across the country.

It is clear that another vicious aim of the socalled "ROK-U.S. joint naval exercise" is to intimidate the South Korean people who have risen up in their heroic anti-U.S., national salvation struggles in various forms including armed guerrilla struggles.

The U.S. imperialists must not miscalculate the determination of the Korean people, however.

The U.S. imperialists can never frighten the Korean people who have prepared themselves against any form of U.S. imperialist aggression, firmly rallied around Marshal Kim Il Sung, the great Leader of the 40 million Korean people and ever-victorious iron-willed commander and have built up an impregnable fortress with a nation-wide and all-people defence system. The Korean people will promptly deliver an annihilating blow at the U.S. imperialist aggressors if they dare pounce upon them.

It is wiser for the U.S. imperialists to cool their head overheated with war hysteria and get out of South Korea at once, together with all their lethal weapons.

Statement of United Democratic Fatherland Front....

(Continued from page 3)

suppression of the South Korean people by the U.S. imperialists and the Pak Jung Hi bandits is nothing but a death-bed struggle to bring under control the crisis of their crumbling colonial rule over South Korea.

Today the crisis of the colonial rule of the U.S. imperialists and their stooges has grown all the more serious in South Korea due to their policies of war and fascistization which are being stepped up in a more unscrupulous way with each passing day, and boundless reverence for Comrade Kim Il Sung, the respected and beloved Leader, and longing for the northern half of the Republic are growing stronger among the people.

Particularly, of late the revolutionary armed guerrilla units are making their appearance everywhere in South Korea and meting out punishment of revenge to the enemy, attacking the U.S. imperialists and the Pak Jung Hi clique from behind, and the people, inspired by this, are vigorously unfolding the mass anti-U.S., national salvation struggle.

Frightened by this revolutionary advance of the South Korean people, the U.S. imperialists and the Pak Jung Hi clique are now working hard to save themselves from the imminent doom by digging up even various "cases" they cooked up several years ago and punishing South Korean patriots under the signboard of socalled "Anti-Communism." What a reckless act of fools this is! Their reckless act will only result in digging their own grave.

The South Korean people are now countering the enemy's fascist suppression with a heavier counter-blow, thereby letting him tremble in uneasiness and fear.

The surging anti-U.S., national salvation struggle of the South Korean revolutionaries and people will eventually overthrow the colonial rule of U.S. imperialism over South Korea and surely lead with credit the South Korean revolution to victory and the historic cause of national unification to accomplishment.

The Central Committee of the United Democratic Fatherland Front and the Committee for the Peaceful Unification of the Fatherland extend militant support and encouragement to the South Korean revolutionaries, workers, peasants, youth and students, intellectuals and all other sections of the people who are gallantly fighting for the unification of the fatherland and the victory of the South Korean revolution fearing neither prison nor gallows in the flames of the anti-U.S., national salvation struggle.

All the developments in South Korea today call the entire South Korean people to the fiercer anti-U.S., national salvation struggle.

The entire South Korean people should, first of all, wage a struggle for release to smash the murderous trial farce of the U.S. imperialists and the traitorous Pak Jung Hi clique and rescue all the South Korean revolutionaries and patriots in danger. Who other than the South Korean people can rescue the patriots, who fought for the freedom and liberation of the South Korean people, from the enemy's talons of murder?

All should rise up as one and unfold a powerful struggle for the unconditional and immediate release of Kim Jong Tai and all other revolutionaries and patriots who are put on trial illegally.

The patriots arrested and imprisoned by the enemy must keep up the vigorous "court" struggle not yielding to any suppression by the enemy, and turn the murderous court of the enemy into a site of decisive fight of revenge for punishing the enemy, into a place of judgement sternly indicting the enemy for his crime before the whole world.

The South Korean people must also actively protect the revolutionary armed guerrillas who are heroically fighting with arms in their hands and render warm assistance, material and moral, to them.

The officers and men of the South Korean puppet army must not take part in the criminal act of suppressing the armed guerrilla units and patriotic people but train their guns on the U.S. imperialists and the traitorous Pak Jung Hi clique, the enemies of the people.

So long as the colonial fascist terror rule of the U.S. imperialist aggressors and their stooges Pak Jung Hi puppet clique, is not smashed, the South Korean people will not be freed from the miserable plight of today.

The entire South Korean people must fight and fight to drive the U.S. imperialist aggressors, the sworn enemy of our people, out of the southern land, overthrow the Pak Jung Hi puppet clique and unify the fatherland in an independent way.

In order to win victory in their sacred anti-U.S., national salvation struggle the South Korean people must firmly arm themselves with the great revolutionary ideas of Comrade Kim Il Sung, the respected and beloved Leader of the 40 million Korean people, who brightly illumines the road for the victory of the South Korean revolution and national unification, and, rallied close around him, advance, advance, struggle and advance.

As Comrade Kim Il Sung, the respected and beloved Leader, taught us, **"If the broad masses of people in South Korea including the workers, peasants, youths, students, and intellectuals firmly unite and courageously come out in the revolutionary struggle, they will be able to smite the U.S. imperialists and the Pak Jung Hi clique and accomplish the cause of the South Korean revolution."**

The people of the northern half of the Republic are now fully prepared to be mobilized at any time in the decisive struggle for accomplishing the national liberation revolution and achieving the cause of national unification by pooling strength with the fighting brothers of the southern half.

The revolutionary people of the whole world are actively supporting and encouraging the anti-U.S., national salvation struggle of the South Korean people and mutilating the U.S. imperialists everywhere.

With nothing can the U.S. imperialists and Pak Jung Hi puppet clique save themselves from the abyss of doom or arrest the anti-U.S., national salvation struggle of the South Korean people.

If the U.S. imperialist aggressors and the Pak Jung Hi fascist rogues run indiscreetly, not looking straight at the reality, and continue to resort to the fascist suppression of the arrested and imprisoned revolutionaries and patriots of South Korea, they will be meted out the stern judgement by the entire Korean people and the revolutionary people of the whole world and will be unable to escape the punishment of a thousand times revenge.

CHONGRYUN Denounces Murderous Trial Farces

The Central Standing Committee of CHONGRYUN (the General Association of Korean Residents in Japan) issued a statement on Dec. 3 in connection with the fact that the U.S. imperialist aggressors and their lackeys traitorous Pak Jung Hi clique are perpetrating the impermissible criminal act of staging a murderous trial almost every day to harshly punish South Korean revolutionaries and patriots on groundless "charges."

The statement reads in part:

The atrocious fascist suppression of the South Korean patriots by the U.S. imperialists and the traitorous Pak Jung Hi clique is an impermissible challenge to the entire Korean people and an intolerable insult to the people all over the world who love justice and truth.

The Central Standing Committee of CHONGRYUN, in the name of all the Korean citizens in Japan, denounce with burning national indignation the U.S. imperialist aggressors and the Pak Jung Hi fascist bandits who have been harshly punishing South Korean revolutionaries and patriots.

Those who must be punished in South Korea are not the patriots but the U.S imperialist aggressors and the traitors Pak Jung Hi clique, who have become their running dogs and are bestially suppressing and murdering patriotic people, while bartering away the interests of the country and the nation to the foreign aggressors.

Nevertheless, the U.S. imperialists and the Pak Jung Hi clique are scheming to punish Kim Jong Tai and other South Korean revolutionaries and patriots, brandishing the notorious "National Security Law" and "Anti-Communist Law" like a thief crying "stop thief," and so, are there on earth an enemy of the people more ferocious than these bandits?

The Central Standing Committee of CHONGRYUN fully supports the statement of the Central Committee of the United Democratic Fatherland Front and the Committee for the Peaceful Unification of the Fatherland denouncing the U.S. imperialists and the Pak Jung Hi clique for their fascist suppression and extends fervent support and encouragement warm kindred feelings to the South Korean revolutionaries and patriots who are valiantly fighting for the unification of the fatherland and the victory of the South Korean revolution.

Marshal Kim Il Sung, the respected and beloved Leader, taught us:

"We cannot merely look with folded arms at the miserable plight of the South Korean compatriots and can never hand down a divided fatherland to our posterity. As long as there remains the wretched situation in which the country and the nation are divided and our compatriots, brothers and sisters of one and the same blood are subjected to all sorts of national insult and maltreatment by foreign aggressors, neither Korean Communist nor conscientious Korean nationalist can say that he has discharged his duty."

Holding aloft the teachings of the respected and beloved Leader, the entire workers of CHONGRYUN and the Korean citizens in Japan will come out as one in the struggle for the unification of the fatherland.

CHONGRYUN workers and the Korean citizens here will widely expose to the Japanese people and the people of the whole world the farces of the murderous trials of the U.S. imperialists and Pak Jung Hi fascist bandits against South Korean revolutionaries and patriots, and endeavour so that they can positively support and encourage Korean revolutionaries and patriots.

If the U.S. imperialist aggressors and the Pak Jung Hi traitors persist in the fascist suppresion of South Korean revolutionaries and patriots despite the strong protest and denunciation within and without, the scoundrels will be severely punished by the entire Korean people and the world people and will be unable to escape the punishment of thousand-fold severe revenge.

DPRK Foreign Ministry Statement

Flays Shameful U.N. "Resolution" On "Conditional Invitation"

(The full text of the statement)

At the meeting of the Political Committee of the 23rd Session of the United Nations General Assembly held on Nov. 27, the U.S. imperialists again forced through the shameful "resolution" uttering the socalled "conditional invitation" to hinder the representative of the Democratic People's Republic of Korea from participating in the discussion of the "Korean question."

The Government of the Democratic People's Republic of Korea resolutely condemns and rejects this U.S. imperialist manoeuvre as a violation of the United Nations principle itself and a gross infringement upon the sovereignty of the Korean people.

Since the question on Korea is discussed at the United Nations it is quite natural that the representative of the Democratic People's Republic of Korea, the party directly concerned, should take part in it unconditionally.

In connection with the discussion of the question on Korea at the current United Nations General Assembly the delegates of socialist countries and many peace-loving states in Asia, Africa and Latin America actively demanded the unconditional invitation of the representative of the Democratic People's Republic of Korea.

Nevertheless, the U.S. imperialists persistently obstructed the participation of the representative of the Democratic People's Republic of Korea this time, too, precisely in an attempt to ignore the authority of the Democratic People's Republic of Korea and prevent the delegates of various countries from hearing the true voice of the Korean people, so as to cover up their true colours as criminals who block the independent peaceful unification of Korea and perpetrate manoeuvres for aggression and new war provocation in South Korea under the signboard of the United Nations.

In the first place, it is contrary to common sense in itself to deal with any question without the participation of the party concerned.

Whenever the "Korean question" was discussed in the past, the United Nations excluded the representative of the Democratic People's Republic of Korea from participation under the pressure of the U.S. imperialists, thereby impairing the authority of the United Nations itself and making the situation more complicated.

The Korean people as a homogeneous nation has only one state and one government. Today the only state of the Korean nation is the Democratic People's Republic of Korea and, it is only the Government of the Democratic People's Republic of Korea that represents the genuine national interests and will of the entire people in North and South Korea.

The socalled "Government of the Republic of Korea" in South Korea, a puppet regime rigged up by the U.S. imperialist aggressors by dint of bayonets, is no more than a marionette that can exercise no sovereignty whatsoever, and can in no way represent the South Korean people. The South Korean puppet clique is a camouflage that acts in everything on the directives of the U.S. imperialists and covers up the U.S. imperialist policies of aggression and war.

It is impermissible for the U.S. imperialists to bring such a puppet clique unilaterally in the discussion of the question on Korea at the United Nations. It is an insult to the Charter of the United Nations.

The Government of the Democratic People's Republic of Korea has always respected and respects the Charter of the United Nations and its objectives.

It is none other than the U.S. imperialists who have flagrantly trampled underfoot the U.N. Charter and usurped the U.N. flag and used it in cloaking their aggressive manoeuvrings, thus defaming the authority of the United Nations.

The United Nations should no longer be utilized by the U.S. imperialists as an instrument of aggression.

The Government of the Democratic People's Republic of Korea will, as in the past, declare null and void and never recognize any "resolution" to be rigged up at the United Nations without the participation of its representative and its consent, against the interests of the Korean people.

Foreign Countries Condemn Criminal Act of U.S. Imperialist Armed Spy Ship "PUEBLO"

The U.S. imperialists who illegally infiltrated the armed spy ship "Pueblo" into the territorial waters of the DPRK to perpetrate espionage act are continuously being denounced in foreign countries.

Lieutenant General Ion Serb, Commander of the Bucharest Garrison, held that the U.S. imperialists must apologize to the Korean people for their criminal act of infiltrating the armed spy ship "Pueblo" into the territorial waters of the Democratic People's Republic of Korea.

He said this at a film show arranged some time ago at the DPRK Embassy in Bucharest in connection with the intrusion of the U.S. imperialist armed spy ship into the territorial waters of our country.

Stressing that the Korean people have the brilliant revolutionary traditions of the anti-Japanese armed struggle because Comrade Kim Il Sung organized and guided the protracted anti-Japanese armed struggle, the Garrison Commander paid tribute to the Korean people who have inherited the traditions and are waging a valiant struggle against the U.S. imperialists and the South Korean puppet clique.

Mihai Marin, vice-Minister of Foreign Affairs, and other attendants at the film show unanimously said that t he "Pueblo" of the U.S. imperialists is a vicious armed spy ship which intruded into the territorial waters of the DPRK to perpetrate aggressive act.

They said that the intrusion of the "Pueblo" into the territorial waters of the DPRK further heightens their vigilance against U.S. imperialism.

According to a report from New Delhi, a film show denouncing the aggressive act of the armed spy ship of the U.S. imperialist aggressor army was held at the DPRK consulate in India.

All the attendants denounced the new war provocation machinations of U.S. imperialism and expressed warm support to the self-defensive action taken by the Korean people.

The UAR T.V. recently screened a film exposing the intrusion of the U.S. imperialist armed spy ship "Pueblo" into the territorial waters of the Democratic People's Republic of Korea. The radio of the UAR also exposed and denounced the criminal act of the U.S. imperialist spy ship

Foreign Dels Flay U.S. Opposition to DPRK Participation in U.N. Debate

At the Political Committee Meeting of the 23rd U.N. General Assembly Session, many foreign delegates laid bare the crimes the U.S. imperialists perpetrated in Korea, using the United Nations as an instrument of aggression, and stressed that no one should interfere in the internal affairs of Korea.

At the Nov. 25 session **Mongolian delegate Dugersuren** exposed and denounced the machinations of the U.S. imperialists and their lackeys who are dead set against the unification of Korea and emphasized that the question of Korean unification is an internal affair of the Korean people and, accordingly, neither the U.N. nor any country must meddle in the settlement of this affair. He also demanded the dissolution of the socalled "UNCURK" and the unconditional invitation of the representative of the Democratic People's Republic of Korea to the discussion of the question related to the situation of Korea.

Ukrainian representative Belokolos also demanded the unconditional invitation of the representative of the Democratic People's Republic of Korea now that the question concerning Korea is discussed in the U.N. and held that the socalled "UNCURK" must be disbanded at once.

Cuban representative Quesada vehemently condemned the criminal moves of U.S. imperialism and its stooges who are doggedly hampering the unification of Korea.

As the question of the unification of Korea is a matter to be solved by the Korean people themselves without any outside interference, the U.N. cannot solve this question, he emphasized.

He indignantly exposed that the socalled "resolution" rigged up by the U.S. imperialists and their stooges is designed to illegally discuss the "Korean question" again at the 23rd Session of the U.N. General Assembly without the participation of the legitimate representative of the Democratic People's Republic of Korea.

The representatives of Hungary, Rumania and Czechoslovakia noted that the cause of the tension in Korea is the U.S. imperialists' interference in the internal affairs of Korea and exposed that the so-called "UNCURK" is nothing but a shield for the aggression of the U.S. imperialists against the Democratic People's Republic of Korea.

Speaking at the Nov. 26 session, **the representative of the United Arab Republic** pointed out that the tedious discussion of the Korean question in the absence of the representative of the Democratic People's Republic of Korea is a violation of the principle of the U.N. and demanded an end to this.

Malik, the Soviet representative, recalled that the discussion of the Korean question for many years in the U.N. has made no progress.

Denouncing the U.S. imperialists for refusing to invite the representative of the Democratic People's Republic of Korea to the discussion of the question on Korea, he exposed that this is because the U.S. imperialists who have been occupying South Korea and interfering in the internal affairs of the Korean people for over 20 years are afraid of the just voice of the genuine representative of the Korean people.

The Polish representative said that all the attempts to discuss the socalled "Korean question" in the U.N. run counter to the interests of the Korean people who have the right to solve their own affairs by themselves. The very fact that the U.S. imperialist aggressors are occupying South Korea abusing the U.N. flag is a hindrance to the solution of the question, he declared.

Denouncing the schemes of the U.S. imperialists who are opposing the presence of the representative of the Democratic People's Republic of Korea, **the representatives of the Congo(B), Tanzania, Iraq, Burundi and Afghanistan** stressed that the representative of the Democratic People's Republic of Korea must be invited unconditionally since the question of Korea is discussed in the U.N.

1. To demand that the U.S. imperialist aggressor troops occupying South Korea under the signboard of "U.N. forces" be withdrawn, the U.N. be not used as a tool of the U.S. imperialists in aggression against Korea and nullify all the "resolutions" on the "Korean question" adopted illegally up to date, dissolve the "United Nations Commission for the Unification and Rehabilitation of Korea," a tool of the U.S. imperialists, and not allow the placing of the "Korean question" before the U.N. General Assembly again;

4. To actively support the just stand of the Korean people for unifying the fatherland independently in a democratic way free from outside interference and the struggle of the South Korean people for national liberation.

The appeal reaffirmed the appeal of the Nicosia meeting which marked off the period between June 25, the day when the U.S. imperialists unleashed the aggressive war in Korea, and July 27, the day when the armistice was achieved, as a "Month of Joint Struggle for the Immediate Withdrawal of U.S. Imperialist Aggressor Troops from South Korea."

In conclusion, the appeal called upon the national committees of all countries to support and encourage the Korean people in their just struggle for unifying the fatherland independently in a democratic and peaceful way and defending peace in Asia and the world and expose and denounce the new war provocation manoeuyres of the U.S. imperialists.
